JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Book Notices.

Ancient Ephesus.

Modern Discoveries on the Site of Ancient Ephesus. By the late J. T. Wood, F. S. A. London: The Religious Tract Society. New York: F. H. Revell. Pp. 128. Price \$1.00.

This little work belongs to the useful series of hand-books called "By-Paths of Bible Knowledge." It is a sketch of some of the most striking discoveries made by the author at Ephesus. Mr. Wood was fortunate enough to find the site of the famous temple of Diana. His trials, discouragements, delays and final success are briefly but vividly described. The Odeum, the Great Theatre, the scene of the concourse of the nineteenth chapter of the Acts, and the (probable) tomb of St. Luke were uncovered and described, as well as numerous inscriptions from both heathen and Christian hands. Much of the material which Mr. Wood found is in the British Museum, and is now being examined by archæologists. Some of it promises to be of great value. This book also contains some interesting details and incidents of exploration, disclosing some of the hardships incident to the life of one who gives himself to original archæological work. Some attractive illustrations are interspersed.

The Smaller Cambridge Bible: Acts.

The Smaller Cambridge Bible. The Acts of the Apostles, with Introduction and Notes. By J. Rawson Lumby, D. D. New York: Macmillan and Co. Pp. 160. Price 30 cents.

The present volume, which abridges the excellent commentary of Professor Lumby on the Acts, is a recent addition to the Smaller Cambridge Bible. The work is admirably done, and while it is to be regretted that the Old Version continues to appear as the basis of the commentary, and occupies so large a part of the valuable space in the book, yet the notes and introduction are useful and valuable in a high degree to teachers in Sunday-schools and private students. The renderings of the R. V. appear in the notes, and the use of black type to indicate corrections and improvements in the renderings adds to the convenience of those who study the book. The price is wonderfully cheap, especially as the make-up of the pages and the printing are in the usual excellent style of the publishing house under whose direction the series is issuing.

The Miracles of Jesus.

The Miracles of our Saviour Expounded and Illustrated. By William M. Taylor, D. D., LL. D. New York: A. C. Armstrong and Son. Pp. 449. Price \$1.75.

This attractive volume will, it is safe to say, be gladly received by many readers. Its plan is to present and discuss the miracles separately. A chapter is accordingly devoted to each one, except in a few instances, for example, the
